P.C.:

1. This application is for appointment of provisional liquidator. It appears that main Company Petition was admitted ex-parte on 23rd September, 2005. Advertisement is effected and notice under Rule 28 has also been served. The Advocate for the Petitioner/Applicant states that the main Company Petition is ready for hearing. The present Company Application is taken out in the year 2006 for appointment of Provisional Liquidator and is pressed on the ground that such liquidator should be appointed as a matter of course when admission is ex-parte. There is no other allegation made against the Company in this application. It is not contended that there is any attempt to dispose assets.

2. The Application can be disposed of with the direction that the main Company Petition should be placed for final hearing on board, if found ready within the period of four weeks from today.
